## The 54th Annual Conference of BETH

### **Mission Collections: Stewardship, Access, Scholarship**

**Location: Warszawa, Poland**

**Date: September 19–22, 2026**

This year, the annual BETH conference will take place in Poland. We look forward to welcoming you to Warsaw and to the Barnabite Centre, where the conference will take place.

Mission collections in our libraries reflect the complex histories of Christian mission. They document evangelisation, theology, local Christian communities, and wider cultural, social, and educational contexts. At BETH 2026, we invite you to engage in a conversation on the visibility and stewardship, research, interpretation, and value of these collections.

We have received many interesting contributions and are currently bringing the programme together. This is still a work in progress, but a preliminary conference programme is now available, so please see the link [here](#).
